YOUNG DIGITAL INNOVATOR 2018

Your pupils' chance to go down in history!

THE TASK

We are looking for the Young Digital Innovator 2018.

We're celebrating science and invention, by asking pupils to come up with an idea that could change the world. It might be a robot, it might be a new technology using computational thinking. We want them to let their imaginations go wild, but also think about how their invention would work. Whatever it is, we want pupils to think of a problem and come up with a solution to solve it.

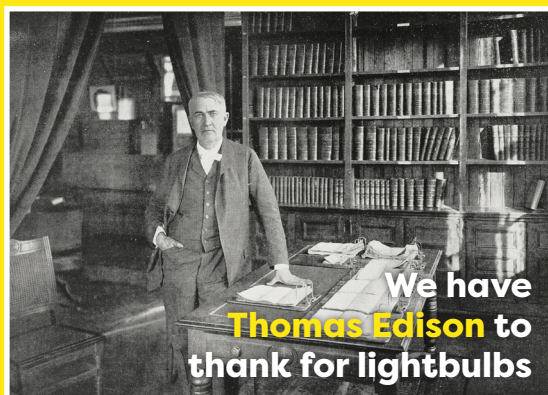

WHAT IS AN INNOVATOR?

The greatest inventions change the world and go down in history. So do the inventors who dared to dream of them!

From American businessman Thomas Edison, who invented the electric lightbulb, to the Scottish-born scientist Alexander Graham Bell, who invented the telephone, inventions are all around us, and where would we be without them?

Now it's your pupils' chance to go down in history! First News has teamed up with TCS for a mega innovation competition.

TCS has been behind some of the world's greatest innovations in recent years and has been leading the way in a world where the future is arriving faster than the speed of thought!

THE PERFECT STEM ACTIVITY FOR YOUR CLASS!

THE PRIZES

We've got some amazing prizes up for grabs!

There are two age groups (11 and under) and (12 to 16). One class winner will be picked from each.

- The winners will get five shiny tablets for them and their classmates.
- Other prizes include a First News subscription, a sleepover in the Science Museum or a VIP experience in its IMAX cinema.

HOW TO ENTER

It's really easy to get involved. Ask your pupils to draw their amazing invention, explain how it would work and give it a memorable name. Then send the entries in to us at:

Young Digital Innovator Competition, First News, First Floor,
58 Southwark Bridge Road, London, SE1 0AS.

Or email them to win@firstnews.co.uk with **INNOVATOR** in the subject box.

Please include your name (as the teacher), the school's name and the best contact details.

The closing date is **23 November 2018**.

THE JUDGING PANEL

Our head judge is none other than British astronaut Tim Peake! Tim would never have made his epic journey into space aboard the International Space Station without inventors! Also joining the line-up is the Science Museum's Susan Raikes, First News editor Nicky Cox MBE, Prof Gail Cardew from the Royal Institution and Ved Sen from TCS.
